FORTRESS**

The right angles and straight lines of St. Petersburg's street plan make the time stop, engaging the spectator in the inner rhythm of their precise geometry, leading the eye – and the thought – to the ultimate point of focus.

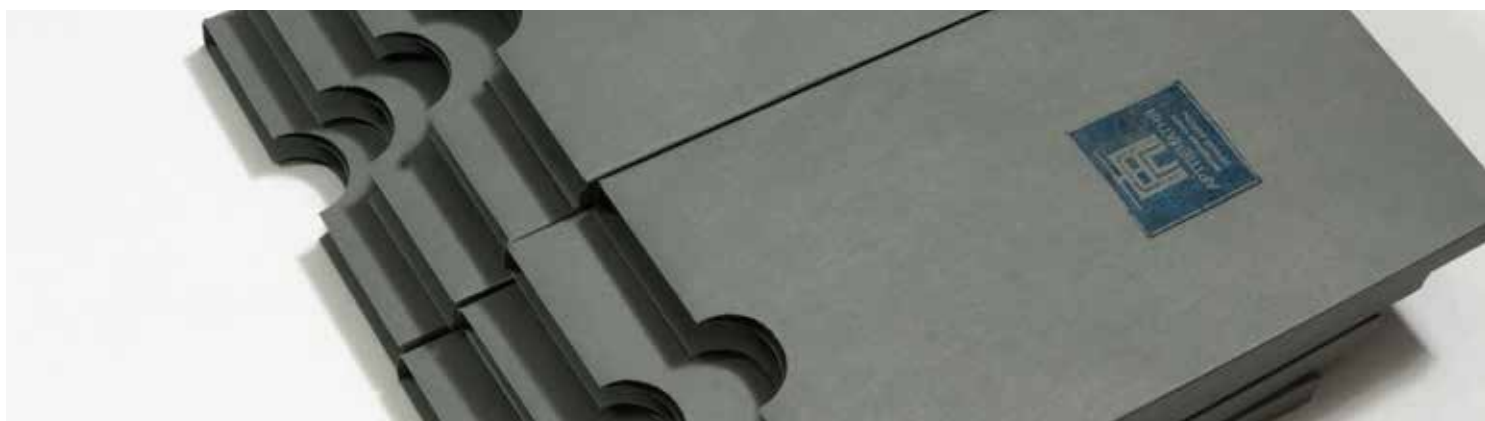

The city's regular lines create movement, inviting us to keep guessing about what we are going to find around yet another corner of the city's granite-clad streets and waterways...

Every gust of wind, every splash of the waves serves to bring home the idea of what it means to be on the banks of the Neva River.

Artist's Book (Libros de artista) - publication is completely made by hand, without the use of technology in the factory workshop of the author.

It carries the spirit of the place where she was born, and all the emotions that the author put into it, transmitted to the fingertips to anyone who takes it in his hands and start a leisurely conversation.
